Bang Samak, Bang Pakong, Chachoengsao 24180

PROFESSIONAL SUMMARY

A fresh Computer Science graduate passionate about software development and automation systems. Skilled in building full-stack web applications using JavaScript, Node.js, React, and PostgreSQL. Experienced in developing organizational real-time chat web apps and automated email ingestion pipelines with AI text parsing. Proficient with modern engineering tools including Git and Docker, with a strong commitment to team collaboration and efficient problem-solving.

PROFESSIONAL EXPERIENCE & PROJECTS

Tomato Idea Co., Ltd. **Nov 2025 – Mar 2026**

Software Engineer Intern (AI Recruitment & Scoring System) *(github.com/Coachzas/recruitment-system)*

- Built Node.js, Express.js, and PostgreSQL backend to manage applicant data with dynamic role-based job criteria configuration.
- Integrated AI models to parse resumes, extract key information, and perform automated criteria-based candidate evaluation and scoring.
- Developed React, Vite, and Tailwind CSS dashboard to track, rank, and compare candidate evaluation scores efficiently.

OrgChat - Organizational Chat Web App **Capstone Project**

Full Stack Developer *(github.com/Coachzas/orgchat-project)*

- Developed real-time messaging backend using Node.js, Express, and Socket.io, integrated with PostgreSQL via Prisma ORM.
- Implemented JWT user authentication and Role-Based Access Control (RBAC) for admins and employees.
- Built Next.js and Tailwind CSS frontend supporting text, file/image sharing, and voice/video calling via Zegocloud.

FormStoreWeb - Custom Order Management Platform **Personal Project**

Full Stack Developer *(github.com/Coachzas/FormStoreWeb)*

- Developed a full-stack web application for custom order management featuring Express guest checkout API endpoints and PostgreSQL persistence.
- Integrated n8n webhook notifications to streamline backend order alerts and automation workflows.
- Built user interface using HTML, CSS, JavaScript, and Tailwind CSS delivering a smooth and responsive ordering experience.

EDUCATION

Kasetsart University, Kamphaeng Saen Campus **Jun 2022 – Jun 2026**

Bachelor of Science, Computer Science

GPAX: 3.07

SKILLS

Programming Languages:	JavaScript (Node.js), HTML5, CSS3, SQL
Frameworks & Libraries:	React.js, Next.js, Express.js, Socket.io, Tailwind CSS, Prisma ORM
AI & Automation:	Gemini API, Claude API, n8n Workflow Automation, Node-cron
Databases & Tools:	PostgreSQL, Docker, Git, Postman, Rest API, Zegocloud
Languages:	Thai (Native), English (Professional Working Proficiency)
